

NSDI: The National Map & Beyond

The next quiz will cover roughly the second half of Chapter 6.

After you take the second quiz, you should be able to:

1. Explain the difference between a vertical aerial photograph and an orthoimage;
2. List and describe characteristics and status of the USGS National Map; and
3. Discuss the relationship between the National Map and the NSDI framework.

Optional: Check out the main website for the National Map: <https://www.usgs.gov/core-science-systems/national-geospatial-program/national-map>  (<https://www.usgs.gov/core-science-systems/national-geospatial-program/national-map>).
